Two Radio Channels

Our two radio channels offer more choices and more opportunities for business partners to align themselves with listeners who value their support of our network.

Today, we have two radio channels.

**News/Classical on FM & HD1**
Hear classical music throughout the day, as well as NPR news and series such as On Point with Meghna Chakrabarti and the international news series The World. There are also entertainment programs like Fresh Air, This American Life and Wait Wait... Don’t Tell Me! and local series including Friday LIVE, Afternoon Concert and All About Books.

**News/Jazz on HD2**
Listen to this channel online at NebraskaPublicMedia.org/radio, by downloading the Nebraska Public Media App to a smart device or on an HD-2 radio. The programming includes a variety of unique programs not heard on the News/Classical channel, with NPR news throughout the day and jazz music at night. This is the place to hear Latino USA, World Cafe and Here & Now.
